

Use a straight edge across the bell housing face and measure the depth as shown. Accuracy is critical to ensure the correct fitment of your clutch assembly.

DIM.A1 -
Bell housing face to fully retracted release bearing face

DIM.A2 -
Bell housing face to mounting face for slave cylinder.
Required if we are to supply an alternative slave cylinder solution - Drawing of hole positions will be required.

DIM.B1 -
Bell housing face to start of input shaft spline section

DIM.B2 -
Bell housing face to end of input shaft spline section
